

BP 4-1: EDUCATIONAL PROGRAM REVIEW

BOARD POLICY BP 4-1

APPROVED: August 26, 2019

EFFECTIVE: August 26, 2019

REFERENCES: Board of Regents' Policy 303.3

In order to ensure program quality, and efficient and accountable academic planning, internal reviews of all academic programs will be conducted regularly, or at least once every three years. Those reviews shall include all programs listed in the degree and program inventory maintained by the Office of the Commissioner of Higher Education.

This process will provide a framework for continuous improvement of the college and its programs while also supporting the utilization of data driven decision-making. Data driven decisions will allow programs to adjust curriculum, degrees, and methods of delivery to accommodate student needs while maintaining the rigor and relevance of program offerings. Deficiencies found within the programs can be quickly addressed and strategies can be established and implemented.

SCOPE This policy applies to Dawson Community College.

PROCEDURES The College President shall promulgate such procedures as may be needed to implement this policy.

History: 1/22/96; 7/1/96; 8/1/2011;
